GOOD NEIGHBOUR® FENCING

STYLE AND STRENGTH

Stratco Good Neighbour® fencing is both strong and attractive. Its design allows clean and uncluttered lines to be enjoyed by neighbours on both sides of the fence. Good Neighbour's strength and style is achieved by using fence sheets that fit simply into profiled steel tracks and posts.

The wide range of heights, profiles and accessories available mean that many different looks can be achieved to suit your personal style. Good Neighbour fence sheet profiles include Superdek®, CGI Corrugated, Smartspan®, CGI Mini and Wavelok®. Wavelok is the flagship of fencing profiles and has been specifically designed by Stratco for fencing applications. It features an identical appearance on both sides.

Good Neighbour fencing is designed to Australian standards and is available in 1200mm, 1500mm and 1800mm heights, while custom panels can be ordered to suit individual applications. The panel width varies according to the fence sheet infill that you select. Superdek and Wavelok panels are 2350mm wide, Smartspan is 2170mm wide and Corrugated and CGI Mini are 2390mm wide.

All the accessories you need to complete your Good Neighbour fence are available at Stratco. Accessories include post caps, single and double gates, and screen-top fencing.

COLOUR CHOICE

Stratco Good Neighbour fencing is available in a full spectrum of high fashion double-sided colours or as unpainted Zinc/Al. Mix and match the colours of the fence sheets, tracks and posts for an individual style.

The complete range of Good Neighbour fencing colours can be found in the Stratco 'Colour Selection' brochure.

ADDED PRIVACY

You can have the added privacy of a higher Good Neighbour fence, while still allowing the light and breeze to flow through, with the Stratco Good Neighbour range of screen-top fencing.

Screen-top fencing is available as a complete system with your new fence or as a 300mm extension that can be added to your existing Good Neighbour fence. The screen-top is attractive and durable. It is available in a range of colours and made from UV treated plastic for a long life.

DESIGN FLEXIBILITY

The modular nature of Good Neighbour fencing means that it can be used on flat sites or modified to suit sloped and undulating land. A special order for longer top and bottom tracks can allow for unusual designs. If the sheets are cut on-site, panels can be constructed to follow the contour of the land. Accordingly, Stratco Good Neighbour fencing is perfect for side, rear and front fence applications and can also be used for garden screens or hiding compost areas.

"A comprehensive collection of affordable fencing styles and options to suit your home and lifestyle"

AFFORDABLE FENCING THAT ADDS STYLE, SECURITY AND PRIVACY

SIMPLE INSTALLATION

Installing a Stratco Good Neighbour fence is the perfect D.I.Y. project. All the installation advice, tools and accessories that you need to complete your fence are available at Stratco. Alternatively, we would be happy to arrange a free measure and quote from one of our Authorised Dealers.

EASY MAINTENANCE

Your Good Neighbour fence will maintain its good looks for even longer with a simple wash and wipe down using a soft broom. Refer to the 'Selection, Use and Maintenance of Stratco Steel Products' brochure for more advice on maintaining your Good Neighbour fence.

Stratco only manufacture fencing of the finest style and quality, so you can have confidence that your Stratco fence will provide privacy and security, with looks to complement your home for many years to come.
