SUN LOUVRES AND SHUTTERS

SUN LOUVRES AND SHUTTERS

Stratco Louvrespan Sun Louvres and Shutters are a versatile screening solution for enhancing your outdoor living area. The elegant louvre designs are distinguished by their clean symmetrical lines and fine leading edges.

- Perfect in standalone applications on decks, verandahs, courtyards and balconies
- Fixed or manual opening using the Simplex™ pivot system
- Hand cranked or motor driven options using the Helix™ drive system
- Full range of colours or fully anodised finish to suit most homes
- Provides protection from the sun and wind
- Adds privacy whilst enhancing visual appeal
- It's an affordable way to add value to your home!

Stratco Louvrespan Sun Louvres and Shutters are made to order and are manufactured from strong aluminium extrusions.

With fixed, or operable blades and sliding, bi-folding and hinged shutter systems available Louvrespan is the perfect sun louvre and shutter solution for a wide variety of applications.

Whether your next project needs shade, privacy or an adjustable weather barrier we can show you how to add the right solution.

FEATURES:

- All fabricated in Australia by Stratco
- All louvre systems are made to custom dimensions to suit your application
- Motor driven units use a quality Somfy motor
- Stratco extrusions are of a thicker wall section for added strength and durability
- All louvres are powder coated to customer specifications/colours
- Louvres can also be anodised - anodised locally to 25µm clear finish
- Frame sizes are 62mm x 42mm – an option of 105mm x 42mm is also available
- Larger panels can be split into bays to enable easier installation.
