CYCLONIC STORAGE SHEDS

## **HANDI-GARDEN™ SHEDS**

#### **HANDI-GARDEN CYCLONIC**

Built to withstand the forces of nature, Handi-Garden Cyclonic Sheds are designed for use in cyclone prone areas. They feature reinforced walls and roofing and are available in an impressive range of colours and sizes. Custom-made sizes with a range of optional extras are also available. Not only are they strong, but bold attractive lines on the outside make the Handi-Garden Cyclonic Sheds more than just a practical addition to the garden.

STRONG AND DURABLE SH	<b>IEDS</b>
-----------------------	-------------

Handi-Garden Cyclonic Sheds feature reinforced walls with heavy duty internal stud frames and a braced roof that uses sturdy ridge beams to ensure your shed will withstand the test of weather and time.

Quality construction means your storage shed will be a lasting investment. The galvanised frame components are welded for strength, while the roof and walls are clad with strong high profile Superdek® steel sheeting.

#### STRENGTH AND STYLE

Not only are they strong, bold attractive lines on the outside make Handi-Garden Cyclonic Sheds more than just a practical addition to the garden. Choose from an impressive range of colours or un-painted Zinc/Al.

Choose from a range of 10 standard sizes, or you can specify a custom made shed up to  $4.2 \times 5.0$  metres in size. The door has a wide opening of 1020mm and the opening features a raised step for strength and to prevent water and debris from entering.

### OPTIONAL EXTRAS

Dress your shed with a range of optional extras including a five blade louvred window, or a five blade louvred window with a security grill, 400mm wide heavy duty shelves and a 300mm spinning ventilator.

Handi-Garden Cyclonic Sheds are the ideal do-it-yourself project. Alternatively Stratco can recommend an independent qualified installer to do the job for you.

STANDARD SHED DIMENSIONS			
Model	Width	Depth	Wall Height
C1	2.3m	1.6m	2.1m
C1a	1.9m	1.9m	2.1m
C1b	1.9m	1.6m	2.1m
C1c	1.6m	1.6m	2.1m
C2	2.3m	2.3m	2.1m
C2a	2.3m	1.9m	2.1m
C3	3.1m	1.9m	2.1m
C3a	3.1m	1.6m	2.1m
C4	3.1m	2.3m	2.1m
C5	3.1m	3.1m	2.1m

Width & depth (approx) measured to outside of the walls

MAINTENANCE: Regular maintenance is essential to maintain the good looks of all Stratco steel products and to ensure you receive the maximum life-span possible in your area. Washing with clean water must be frequent enough to prevent the accumulation of dust, salts, and pollutants or any other material that will reduce the life of the product. Stratco steel products that are regularly washed by rain require no additional maintenance. No Stratco steel structure or materials are recommended for use over, or in close proximity, to swimming pools or spas. No material that retains water (such as dirt or paving sand) should be placed against the columns. Care must be taken when determining the location of Stratco steel products so that they are not placed in close contact with sources of pollution or environmental factors that could affect the life of the steel. Refer to the 'Selection, Use and Maintenance' brochure for more information.
